TO: Directors of Environmental Health
California Environmental Health Association
College and University Faculty
Environmental Health Specialist Registration Committee

FROM: Environmental Management Branch
Drinking Water and Environmental Management

SUBJECT: Environmental Health Specialist Registration Program

We are pleased to announce that Margaret D. Blood has accepted the Administrator position for the Environmental Health Specialist Registration Program. Margaret brings a wealth of skills, field experience, and personal energy to the Department of Health Services. More importantly, Margaret is highly motivated and committed to meeting the challenges of the Registration Program. Over the last several months and years we have been fortunate to have Doug Turner, Dave Quinton, Deann Kanenaga, and Robin Belle Hook working diligently to support the Registration Program. You can be assured that you will continue to receive a high level of professional services.

Margaret graduated from Sonoma State College and has worked as a Registered Environmental Health Specialist for the last 19 years. Margaret is also an active member of the California Environmental Health Association. Margaret resides in Calaveras County with her husband Richard Blood who is also a Registered Environmental Health Specialist. You might say that registration runs in the family.

Please join me in welcoming Margaret to her new job. If you have any questions, please don't hesitate to contact Margaret (916) 324-8819 or me at (916) 327-1053.

Sincerely,

Original Signed by

Glenn Takeoka, Chief
Environmental Health Services Section
